Message from Hon. Laurent L. Desjardins

It is with very great interest that I have reviewed the work of the Manitoba Lotteries Commission. The responsibility for the Commission has indeed been transferred to the Minister of Tourism, Recreation and Cultural Affairs, and this seems to me to be most appropriate, as it relates directly to this government's policy of using lottery revenues.

In the area of community recreation, lottery revenues this past year have been used to assist in the construction of recreational facilities throughout the Province, as well as grants to specific organizations, such as the Canadian Legion for its sports development programs at the International Peace Gardens, and the Manitoba Secondary Schools Athletic Association for its valuable contribution to sports. Some special grants have been made to organizations whose interest is to provide recreational activities for handicapped and disadvantaged people. In addition, lottery funds have made possible a variety of sports demonstrations and clinics to develop sports interest and new programming in communities.

Lottery funds were also used to create a pool of recreational equipment for distribution on a loan basis to communities, with an object of creating interest in new recreational opportunities within communities lacking such

equipment. A grants program was also instituted to encourage the communities to procure arts and crafts equipment for new programming.

Lottery funds will in the future be used for direct grants to sports organizations for the promotion and development of sports. Funds have also been allocated for trial development of a Manitoba Games and for support to sports organizations in connection with the Canada Games.

The lotteries made it possible for us to launch Festival/Manitoba, which provides an umbrella for many exciting activities that take place in communities all over our province. Outreach and extension programs making it possible for cultural facilities and opportunities presently in existence in the capital city to benefit all communities are proving to be very popular, and are supporting and supplementing local activities. By the use of lottery funds the Manitoba Museum of Man and Nature was able to create and program the Rolling Stock Museum in northern Manitoba—a most successful project.

The first allocations for the use of lottery funds were made during the past fiscal year. Some of the uses and programming generated by these funds have been outlined above. It is obvious that the people of Manitoba through the programs of Tourism, Recreation and Cultural Affairs have already derived considerable benefit from the funds provided by the Manitoba Lotteries Commission. Additional funds will in the future be used to very great advantage in the departmental basic objective of developing adequate and beneficial leisure time activity opportunities for all Manitobans in all areas of the Province.

HON. LAURENT L. DESJARDINS
Minister of Tourism, Recreation and Cultural Affairs

Chairman's Report

The commission moves into its 3rd year of operation with confidence and pride in its achievements to date.

Lorne A Leech

LORNE A. LEECH
Chairman

The Manitoba Lotteries Commission, an agency of the Province of Manitoba, was established to operate lotteries by which revenues could be obtained for the cultural and recreational use of citizens in this province.

On behalf of the board of directors, it is therefore my pleasure to present herewith the second annual report of the Manitoba Lotteries Commission reflecting a year of steady growth in the revenues generated by Manitoba Golden Sweepstakes series—reflected in both the people of Manitoba and the numerous non-profit sales agencies.

While generating revenues, it has also been the responsibility of the Commission to encourage the sale of lotteries tickets through the many charitable or community-oriented organizations, thus augmenting the revenues required by these worthwhile groups.

As in the first year of operation, many factors have contributed to success in these endeavours. I would be remiss in my duties if I did not, again, applaud the many organizations which sold tickets to raise funds for these worthwhile causes, a dedicated Commission staff, the warm response of citizens to our product and objectives, the support of the Manitoba media and our high reputation across Canada.

Director's Report

On November 1, 1972, the Manitoba Lotteries Commission relocated its headquarters from Winnipeg to the new Provincial Government building in Selkirk, Manitoba, about 20 miles north of Winnipeg.

The move has given the Manitoba Lotteries Commission much-needed space in air-conditioned quarters with space allocated to the various functions of processing.

With the introduction of one draw each month, the element of television was also added to our draws in order to enable many more people throughout the province to witness each event. Television has also served to announce individual winners immediately and, in some cases, winners have been telephoned and interviewed on the program immediately following the draw.

The Manitoba Golden Sweepstakes are experiencing steady growth and sales in all three events have increased. Sales are up 14 per cent on the Canadian Curling Championship; 15 per cent on the Canadian Football Championship and there were 973,226 tickets sold on the running of The Manitoba Derby. I anticipate this growth will continue.

The Manitoba Lotteries Commission, always open to new avenues, is currently considering a fourth major event.

This, however, is still in the planning stages and will be introduced at a later date.

During the period April 1, 1972, to March 31, 1973, revenues of the Manitoba Lotteries Commission were \$6,381,785.50 and disbursements were \$1,874,449.00 in grants and commissions to agencies, \$1,200,250.00 in prizes and \$1,646,500.00 was turned over to the provincial government's consolidated trust fund.

In addition, a further \$733,183.00 was allocated for salaries, rent, local purchases, printing and advertising.

In closing, I would like to pay particular tribute to all our sales agencies who have contributed so greatly to the success of the Manitoba Golden Sweepstakes.

John A. Stewart
JOHN A. STEWART
Director

Projects

Even if you don't win — you can't lose. That statement might well be the slogan of the Manitoba Lotteries Commission for every ticket sold in the Manitoba Golden Sweepstakes is sold by an agent, and every agent is a member of a recognized non-profit organization that's raising funds for a specific project.

Which means that the money these groups raise from ticket sales is spent on worthwhile projects. For example:

... 10,000 school children will visit the Manitoba Forestry Association conservation training site at Hadashville, receiving instruction in conservation.

... A kidney dialysis machine has been installed with the Kidney Foundation of Canada — Manitoba Division.

... A \$250,000 sports complex will provide a year-round facility in the youth camp area of the International Peace Gardens.

... 25,000 young hockey players are attending referee clinics, coaches schools.

... Badly-needed extensions to senior citizens homes are being constructed.

... A Wildlife Youth Recreation Centre will become a reality and plans are also underway for a Wildlife Heritage Park.

... The Whiteshell Scout and Youth Camp will hold jamborees for 240 campers. A lodge, dining room, kitchen and tenting area has already been constructed.

... Ethnic groups have performed across Canada with festivals of song, music and dances.

... Free Chest X-Ray Vans are helping stamp out Tuberculosis in Manitoba.

So when someone buys a \$2.50 Manitoba Golden Sweepstakes ticket, they're buying more than a chance at the jackpot. They're helping to buy good things for people who need them. Even if you don't win ... you can't lose.

Auditor's Report

PROVINCE OF MANITOBA
PROVINCIAL AUDITOR

I report that the accounts of The Manitoba Lotteries Commission have been audited under my direction for the fiscal year ended March 31, 1973. The audit included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as were considered necessary in the circumstances.

In my opinion the statements appended hereto as Exhibits A, B, C and D present fairly the financial position of The Manitoba Lotteries Commission as at March 31, 1973 and the results of its operations for the year then ended, in accordance with the accounts of the Commission maintained on a basis consistent with that of the preceding partial year of its operation except for the classification of postage expense.

A handwritten signature in black ink, reading "W. K. Ziprick".

W. K. Ziprick, C.A.,
Provincial Auditor.

June 29, 1973.
Winnipeg, Manitoba.

Move to Selkirk

The Manitoba Lotteries Commission assumed new administrative quarters in Selkirk, Manitoba in late 1972.

The premises, located on Main Street in Selkirk's central business district, were officially opened February 12, 1973, by Public Works Minister Russell Doern, and reflect the provincial government's policy of decentralization. The Manitoba Lotteries Commission shares space in the new premises with other provincial government departments.

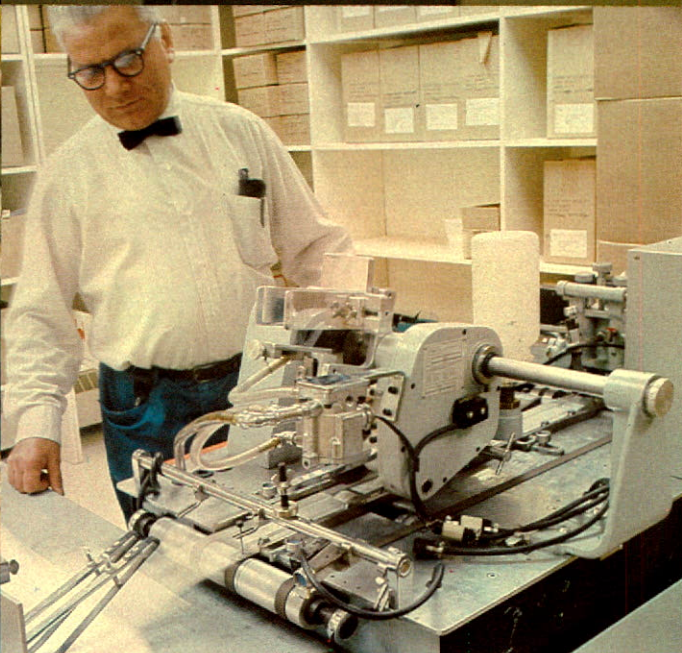

The Public Works Department began planning the building

in the fall of 1971 with design work being carried out by the firm of Roy Lev Architects, of Winnipeg.

Structural steel for the building was fabricated at the Manitoba Rolling Mills plant at Selkirk. Interior partitions are of steel stud and drywall construction, while the exterior walls are composed of concrete masonry and a main street facade featuring pre-cast concrete panels and glass.

As well, the Manitoba Lotteries Commission has retained its Winnipeg address for the convenience of agents.

TV Draws/The Big Winners

The medium of television is earning a greater role in the activities of the Manitoba Lotteries Commission with early bird and final draws being televised to more than 80 per cent of Manitoba's population live and in color.

Each draw, televised in a half-hour format, is carried live on CKY-TV and rebroadcast the same night following the late news, sports and weather.

Use of a character-generator has enabled studio technicians to superimpose names and addresses of all winners over programs following the draw at the station.

Extended coverage of the draws is now possible since CKY-TV now covers southwestern Manitoba through the facilities of the Brandon Rebroadcasting Station (CKY-TV 2) on Channel 4 with the potential of an additional 160,000 viewers.

Further stations will become available in the future.

The studio audiences, composed of general public and interested agency representatives, have had the opportunity of watching such varied Manitobans as the Orest Meleschuk rink, wives of the Winnipeg Blue Bombers and others being

led to the revolving bubble by congenial host Cliff Gardner.

The \$100,000 winners of the year—who are they, where do they come from and what has the Manitoba Golden Sweepstakes windfall meant to them?

Mrs. Marie Ouellette, a Dugald, Man., housewife living in British Columbia, picked up \$100,000 on the running of the Manitoba Derby July 15. With her winnings, Mrs. Ouellette and her husband bought a home they had always wanted.

Leslie Hefford, a 49-year-old trucking supervisor from Kitchener, Ontario, stood and cheered in the stands early in December as the Hamilton Tiger-Cats clinched a \$100,000 win for him by walking away with The Grey Cup.

Mauritz Rosendahl, a 46-year-old maintenance mechanic of Mississauga, Ontario, who doesn't usually get excited over such games as curling, beamed broadly in the Edmonton Gardens March 10, as Saskatchewan skip Harvey Mazinke took top honors in the McDonald Brier. Mr. Rosendahl returned home with a cheque for \$100,000.
